COLUMBIA ROYAL BLUE RECORD CATALOGUE

In this new catalogue of the famous Columbia Royal Blue Records we have continued the system of record listing which has proved so satisfactory to our patrons in the recent past. The arrangement is alphabetical throughout. Each double-sided record containing two individual selections is listed twice under the selection titles, as for instance:

7303-M Song of the Volga Boatmen (*Russian Folk Song*)
Don Cossack Choir (*Monotonously*)

The word (*Monotonously*) appearing at the extreme right hand margin is the first word of the title pertaining to the other side of the record. Turn to this word in its proper alphabetical location and the other title is readily found, namely:

7303-M Monotonously Rings the Little Bell (*Russian Folk Song*)
Don Cossack Choir (*Song*)

and again under the name of the artist, as:

Don Cossack Choir, Conducted by Serge Jaroff
Song of the Volga Boatmen 7303-M
Monotonously Rings the Little Bell 7303-M

COLUMBIA ROYAL BLUE RECORDS

The Columbia Royal Blue Record is known to manufacturers, dealers, and the buying public as a record of remarkable playing qualities, with a uniquely smooth, silent surface, as well as a record of great strength and durability. It is called "the record without scratch."

The superiority of the surface of the Columbia Royal Blue Record not only is apparent to the ear of the listener, but is easily explained scientifically. Columbia Royal Blue Records are made by the "laminated process," or "new process," which is protected by patent, owned by the Columbia Phonograph Company.

COLUMBIA
VIVA-TONAL (ELECTRICAL) RECORDING

All records listed in this catalogue are electrically recorded with the exception of a few favorite records of the older ("acoustic" or mechanical) process which by reason of continuing popularity and public demand have been selected for retention herein. For the information of our patrons we offer the following convenient method whereby it may be determined at once from the catalogue number whether any record is of the older process.
